

Grant management built directly inside Raiser's Edge NXT.

SwiftGrants

Replace spreadsheets, email chains, and manual reminders with a structured grant workflow built natively inside RENXT. Every grant, one place, zero workarounds.

WHY SWIFTGRANTS

- **Work where your data lives**
Grant activity stays connected to fundraising data, giving teams clearer insight into funding pipelines and outcomes. No syncing required.
- **Protect institutional knowledge**
Grant history, documents, and context remain accessible through staff transitions, with secure file storage tied to your existing tools.
- **Reduce risk and manual effort**
Built-in deadline tracking, reporting requirements, and recurring grant duplication help teams stay ahead of compliance obligations.
- **Eliminate spreadsheets and rework**
A single system replaces disconnected tools and duplicate data entry. One source of truth for every application, report, and task.
- **Improve visibility and collaboration**
Dashboards, calendars, and task ownership keep teams aligned on deadlines and requirements without constant meetings or email threads.

WHO IT'S FOR

SwiftGrants is built for **grant managers, foundation relations teams, and development operations teams** at nonprofit, higher-ed, and healthcare organizations using RENXT, particularly those managing multiple active grants and reporting requirements.

WHAT TEAMS ARE SAYING

"SwiftGrants has significantly reduced the administrative burden of grant management, allowing our team to focus more time and energy on securing additional funding to support our mission."

**Sarah Deis, Director of Foundation Relations
Children's Hospital Foundation**

"SwiftGrants has been an incredibly user-friendly integration with RENXT, making grant management, reporting, and prospecting seamless for our team. The onboarding process was smooth and straightforward, and the platform is intuitive enough that we rarely need support. When we do check in, it's usually just to share how impressed we are with the tool and the team behind it. If you are applying for grants, this program is something that NEEDS to be in your fundraising repertoire."

**Ashlyn Mehlhaff, Director of Development
Catholic Charities of Madison**

WHY SWIFTGRANTS IS DIFFERENT

- 1 Native to RENXT**
Unlike external grant platforms, SwiftGrants lives directly inside Raiser's Edge NXT. Grant activity stays connected to fundraising data, reporting, and permissions with no syncing required.
- 2 Full grant lifecycle**
Supports applications, reporting requirements, assignments, and deadlines in one structured workflow. Designed by grant professionals to follow the natural cadence of the grant-seeking process.
- 3 Real-time visibility**
A filterable dashboard and calendar view give teams an up-to-date picture of every active grant, outstanding task, and upcoming deadline, all in one place.
